NO. 285—EIGHTIETH YEAR VICTORIA, BRITISH COLUMBIA, WEDNESDAY, NOVEMBER 16, 1938 FOURTEEN PAGES

PREPARE TO ARRANGE BARGAIN WITH HITLER FOR ENSUING PEACE

France and Germany Reach Preliminary Basis for Joint Renunciation of War—Wave of Jewish Persecution May Put Damper on Negotiations in Progress at Present Time

PARIS, Nov. 15 (AP).—France was reported tonight as prepared to arrange a bargain with Reichsfuehrer Hitler which would in effect give Germany a free hand in Eastern Europe in return for a Nazi guarantee of her Rhineland frontier.

An official spokesman said a preliminary basis had been reached for a joint renunciation of war to insure peace co-operation between the traditional enemies, substituting conference tables for war in any future disputes.

It was expected the accord would parallel closely the agreement Hitler and Prime Minister Chamberlain signed at Munich September 30 expressing desire of their peoples never to fight one another again.

MIGHT BE DELAY
However, Havas News Agency indicated there might be delay. "It was evident," Havas stated in a copyright dispatch from Paris, "that reaction to the new wave of Jewish persecution launched by Germany has placed a sharp brake on French negotiations for a general understanding with the Reich, the broad outlines of which have been agreed upon during the last few days."

Italian extension of the newly-adopted racial laws had also placed a damper on French aspirations for better relations with Rome, Havas continued.

According to authoritative information, Havas said, the Franco-German question, which France had hoped would resolve itself into an agreement similar to the Chamberlain-Hitler declaration, would have to simmer pending developments on Berlin's anti-Semitic front.

RESULTS FORECAST
It was forecast the German-French agreement would have these results:

1. If another crisis, such as that over Czechoslovakia's Sudeten regions, should arise France would be pledged to settle her part by conference negotiations as was done at Munich.

2. Germany, therefore, would be free to pursue her own policies in

SET FIRES AS FOE ADVANCES

Capital of Hunan in Flames With Thousands Taking To Flight

SHANGHAI, Nov. 16 (AP).—The Japanese advance toward Changsha, Hunan provincial capital, has added the Chinese "scorched earth" policy to the panic of mass civilian flight from the Japanese offensive.

Fragmentary news from Changsha indicated that the populace had been reduced to a few thousands by an exodus of civilians and soldiers, and that those remaining were powerless against fires set in anticipation of Japanese occupation.

The population of Hengyang, about 100 miles south-southwest of Changsha, also was reported to have started a general withdrawal.

Hengyang is Hunan's second largest city.

North of Changsha and northwest along the Yangtze Valley thousands were in flight from the battle zone fanning out from Hankow, captured October 26 by the Japanese.

Standard Oil properties along the Ssang River outside Changsha had become the refuge of most of the foreign residents. A group of missionaries remained inside the city in the American Hunan Bible Institute's compound.

Predicts Government Will Assume Charges After Readjustments

Education, Hospital and Social Service Charges on Land May Be Lifted From Cities After Rowell Commission Reports, Legislature Informed

SPEAKING on the budget debate yesterday in the Legislature, Howard Forester (Lib., Burrard) predicted that the "Provincial Government would take over the cost of education, hospitals and social service charges on land just as soon as it is possible to do so." This might be, he suggested, after the Rowell Commission had reported, and readjustments came on Federal-Provincial relations.

Mrs. R. P. Steeves (C.P.F., North Vancouver) urged establishment under provincial supervision of nursery schools for training children between the ages of two and five years.

Harry Johnston (Liberal, Revelstoke) contributed to the debate, argument being adjourned by Glen E. Braden (Liberal, Pella) until 2:30 p.m. today. No fresh legislation was offered, though private bills went under committee review.

MRS. STEEVES, M.P.P.
Stating Conservatives had made a better showing in hard times than their successors with peak revenues, Mrs. Steeves described the budget as a miserable farce, and derided the

Roosevelt Announces Plans For Vast Defence System Would Include Canada

WASHINGTON, Nov. 15 (AP).—President Roosevelt denounced the German dictatorship's treatment of Jews today as almost beyond belief, and then pictured a vast, two-continent defence system in which all the Americas would present a united front against aggression from abroad.

His remarks on the Jews, given out at a press conference, were as follows:

"The news of the past few days from Germany has deeply shocked public opinion in the United States. Such news from any part of the world would inevitably produce a similar profound reaction among American people in every part of the nation."

"I myself could scarcely believe that such things could occur in a twentieth century civilization."

MILITARY DEFENCES
Mr. Roosevelt's words on military defenses were closely linked in his listeners' minds to his statement about Germany because of widespread speculation that the total-itarian inspection duties of a special nature for which he is particularly well fitted."

OTTAWA, Nov. 15 (AP).—Major-General T. V. Anderson, Quartermaster-General, will succeed Major General C. Ashton as Chief of the General Staff shortly.

The Defence Department announced today, General Ashton is to "undertake inspection duties of a special nature for which he is particularly well fitted."

FROSTS IN SOUTH HARM CROP AREAS

California Losses Expected to Reach \$500,000—Grapes and Olives Greatest Sufferers

SAN FRANCISCO, Nov. 15 (AP).—An early frost, which for three days played havoc in California's vegetable garden, came out into the open today, nipped produce markets and took a bite out of the farmer's pocketbook.

The killing frost is gone for the time being, the United States Weather Bureau reported, but market experts were still puzzled at the amount of damage it had done.

Reports from Fresno indicated that the San Joaquin Valley citrus crop was hard hit, although Imperial Valley's amouge-protected fruits apparently escaped with little damage.

Heaviest losses were suffered by truck crops, grapes and olives. Indications were that official figures for the entire state would show a loss of more than half a million dollars.

\$55,000 FOR A PICTURE
AMSTERDAM, Nov. 15 (AP).—Rembrandt's "Portrait of Martin Loeck" sold for "12,000 guilders, (about \$55,000) at an Amsterdam auction today to an anonymous American collector. The picture brought three times that price a few years ago. It is a big portrait of an old man in simple seventeenth century dress.

NAZI LEADERS DISAGREE OVER EXTENT OF ANTI-JEW VIOLENCE

Field Marshal Goering Reported in "Angry Mood" Because of New Wave of Disorders—Goebbels Approves "Inwardly" of Wholesale Demolition—Interference Is Reported

AMERICAN ENVOY SUGGESTING EMIGRATION AS ONE SOLUTION

BERLIN, Nov. 15 (AP).—Field Marshal Hermann Goering was reported in reliable quarters tonight to have been in an angry mood when he learned of the new wave of Nazi anti-Semitic violence, on the grounds it severely jolted the four-year economic plan he directs.

The field marshal, whose dozen positions include the premiership of Prussia and supreme dictatorship over foreign exchange and raw materials, was reported to have given strict orders to cease property destruction, such as that of last Thursday when Jewish stores and synagogues throughout Germany were damaged and burned.

He was said also to have berated those responsible for damages costing millions of dollars, but the smashing of a laundry and a grocery near Tempelhof Airfield in Berlin last night indicated disregard of his orders.

GOEBBELS APPROVES
Goering's views differed in principle from those of Propaganda Minister Goebbels, who said he approved "inwardly" as he put it, the wholesale demolition, beginning last Thursday.

WOULD PLACE JEWS ABROAD

Mass Exodus of Population From Reich Domination Being Planned

LONDON, Nov. 15 (AP).—The British Government tonight considered a new scheme for leading a mass exodus of Jews from Germany. The plan was believed drafted by Joseph Kennedy, United States Ambassador.

Dominions, colonies and mandated territories of the British Empire, together with United States, South American nations, France, Belgium and the Netherlands, according to the reported plan, would try to move the majority of the 600,000 Jews still in the Reich, not just a part of them.

CHAMBERLAIN AGREES
Kennedy conferred with Prime Minister Chamberlain at No. 10 Downing Street and it was believed both Mr. Chamberlain and Foreign Minister Halifax liked the plan and agreed to try it.

To expedite a solution of the problem, intensified by last week's wave of violence against Jewish property in Germany and by ensuing restrictive decrees, the United States and British colonies may be asked to take some refugees immediately.

It was possible a conference might be called soon to allocate the refugees. Ambassador Kennedy, however, refused to make public details of the plan. Though the attitude of the Dominions was not known, it was believed they would agree to try it.

ROYAL VISITORS ARE BANQUETED

King and Crown Prince of Rumania Guests at Buckingham Palace

LONDON, Nov. 15 (AP).—The King and Queen gave a banquet in Buckingham Palace tonight in honor of King Carol and Crown Prince Michael of Rumania, here on a visit of state.

There were 160 guests. Prime Minister Chamberlain, with most of his Cabinet, represented the Government. Fifteen ambassadors were invited.

King Carol, reported seeking British financial aid in the form of armament credits and the promotion of Anglo-Rumanian trade to balance German-Rumanian business, sat between King George and Queen Elizabeth. The seventeen-year-old Michael sat between the Queen and the Princess Royal.

King George made King Carol a Knight of the Order of the Garter and conferred upon Michael a knighthood. Grand Cross of the Royal Victorian Order.

Future orientation of Rumanian foreign policy, observers declared, may be influenced by the reaction which King Carol finds here to his economic and commercial problems.

YOUTH IS GUILTY OF MANSLAUGHTER

Admits Charge at Assizes at New Westminster and Is Remanded For Sentence

NEW WESTMINSTER, Nov. 15 (AP).—Harold Edward Hamilton, nineteen-year-old Chilliwack youth, pleaded guilty in Assize Court today to a charge of manslaughter resulting from the death of George William Muir, fatally injured in a traffic accident on September 30. He was remanded to the end of the Assizes for sentence.

Muir, seventeen, was a passenger in an automobile alleged to have been driven by Hamilton when it overturned into a ditch near Chilliwack, about seventy miles east of here in the Fraser Valley.

CRASHES WHEN BEAR PURSUES

Girl Skater Rescued From Waters of Lake—Bear Makes Shore

WILLIAMS LAKE, Nov. 15 (AP).—Joy MacKinnon was rescued from the chill waters of Lac La Hache by her sister, Lovett, today, after crashing through thin lake ice in fleeing from a pursuing bear.

Miss MacKinnon, member of the MacKinnon skaters skating team recently returned from a European tour, ran out on the ice when the bear chased her. The animal went back to shore when the ice began to weaken, but the girl continued out onto the lake until the ice gave way.

Her sister who rescued her was given an award for heroism for participation in a rescue in Vancouver in February, 1936. The two sisters plan to leave here soon for an extended world tour.

Lac La Hache is fifty miles from here.

CARETAKERS ARE PAID MORE THAN PRINCIPAL

TORONTO, Nov. 15 (AP).—Officials at the Toronto school administration building today made public figures showing some caretakers of Toronto schools have a net income higher than the salary at which high school principals start.

One caretaker receives \$3,857 compared with the \$3,800 at which principals start.

Later in the police station he said: "I'd better get out of here because I've a date for Friday night."

Charged with attempting to rob while armed and with assault, Kirley will be arraigned in police court tomorrow.

Amendment Is Defeated in British House

LONDON, Nov. 15 (AP).—The House of Commons tonight defeated a Labor amendment to the address in reply to the Speech from the Throne of any reference "to the serious problem of unemployment represented by the nearly 2,000,000 men and women who cannot find work."

Sir John Simon, speaking for the Government, asserted the problem of unemployment was being attacked from a number of directions, including external policy, financial possibility and the encouragement of trade.

KILLED VON RATH ON OWN INITIATIVE
PARIS, Nov. 15 (AP-Havas).—Herschel Grynszpan tonight declared he belonged to no party or group in France or Germany, and that he had killed Ernst von Rath, German embassy secretary, without anyone's aid or encouragement. The seventeen-year-old youth, a native of Hanover, Germany, told an investigating magistrate: "I take full responsibility for my deed. I acted on my own initiative."

Bolivia Unique Land Says Recent Visitor In Addressing Club

Mrs. Madge McBeth Gives Entertaining and Instructive Lantern Lecture About South American Republic to Women's Canadian Club

BOLIVIA, so much of which is more than 10,000 feet above sea level, that it is often called the Tibet of South America, is a country that has to be seen to be believed, was the subject of a fascinating lantern-lecture, compact with interesting facts and witty comment, given at the Empress Hotel ballroom yesterday afternoon to the Women's Canadian Club by Mrs. Madge McBeth, Ottawa, Canadian author, lecturer and traveler.

Named after Simon Bolivar, eighteenth century soldier and statesman who delivered so many of the South American countries from the domination of Spain, Bolivia was pictured as "a country of many lakes," one of the highest inhabited countries in the world, possessing the largest borax lake, the greatest tin and bismuth products in the world, the highest eighteen-hole golf course, and where the Andes attain their greatest breadth. It is also one of the few countries with two capitals, viz. La Paz and Sucre, the latter the old, containing only the court of justice.

Two periods of civilization antedated by many years even the ancient Inca civilization, of which many interesting relics were pictured in domestic architecture, temples, pottery, catacombs and mummies.

RACY DESCRIPTION
Mrs. McBeth gave a racy and vivid description of the country, after some hair-raising adventures in landing from the vessel that conveyed her to the coast of Chile. Graphically she pictured the ascent from the plains, through breath-taking scenery over the Western range of the Andes, to the great upper plateau, from the windows of the train passengers watching the change in farming conditions, the replacing of cows by llamas, the appearance of the na-

live women in the fields, their babies slung in a shawl at the back; their hands, if not otherwise engaged, always busy spinning; and voluminous in their numerous and enormously full skirts.

A lively description of the crossing of Lake Titicaca, 12,000 feet above sea-level, was given, and two of the excellent pictures of this vast body of water were shown. On its barren shores was a Canadian Baptist mission. Having crossed the lake one felt immediately that one was in a legendary country, the land of an ancient civilization. At noon that day she was looking directly down a thousand feet into La Paz, several excellent views of which were shown on the screen during the afternoon. The charm of the city lay, said the speaker, in the people, with their strange customs and costumes. Among the former were mentioned some of the systems of amusing petty robbery practised by household servants, who, sent to market by their mistresses because they were the better fitted to bargain, made a high commission on their purchases when charging the account up to the mistress. On the other hand, the best cook in La Paz was paid only \$5 per month. Owing to the high altitude and the low boiling temperature, cooking was not easy. The high altitude also accounted for the virulence of sickness.

FEW BEGGARS
The absence of beggars; the paucity of telephones, of which there were less than 500 in La Paz; the difficulty of buying stamps or posting letters because one had to go to the only postoffice in connection with either, were among the things noted in La Paz.

Splendid lantern views of the Andes, ancient Inca ruins, native feasts of Lima, of the Bolivian Chaco and open grassy plains or llanos; of guanaco, alpaca and vicuña; and of some of the farms, navigable rivers, etc., were included in the fine sequence of pictures.

Mrs. Harold L. Campbell, the president, presented Mrs. McBeth with a copy of the club book, "Pioneer women of Vancouver Island," and Miss Sheila Conway gave much pleasure with two songs, accompanied at the piano by Mrs. C. C. Wain.

YOUTH COUNCIL SHOWS PICTURES
Thirty delegates and visitors attended the Victoria Youth Council's "Pioneer Women of Vancouver Island" Night," held at the Y.M.C.A., when moving pictures on the work of the movement in British Columbia were shown.

Addressing the meeting were Alfred Batchelor and Miss Haines Vancouver Island directors of the Provincial Recreation Centre. It was announced that the Victoria Youth Council would hold its first model parliament to discuss the matter of the form and of the constitution of the Y.M.C.A. at the Y.M.C.A. auditorium on Thursday at 8 p.m. All youth groups are invited to send delegates. Entertainment will include a pupils' dance recital.

HOWARD SCOTT VISITOR HERE

Head of Technocracy Inc., Says Movement Limited To This Continent

Howard Scott, director-in-chief of Technocracy Inc., with headquarters in New York, arrived in Victoria yesterday in the course of his annual tour of Canada and the United States, addressing the branches of the movement. Mr. Scott and his secretary, both attired in dove-grey double-breasted suits—Technocracy grey, to use Mr. Scott's words—engaged a suite in the Empress Hotel, and will remain here until Friday.

"We are organizing only on this continent. This is not an international movement and never will be; we are not interested in any place else," Mr. Scott declared. Technocracy is not open to persons who are members of any political parties or subscribe to any party policies, and Asiatics are debarred, he said.

"We have no hatred or enmity towards Asiatics," he explained, "but we can't assimilate them on this continent. We are all for Asiatics in Asia, and we propose to ship them back, providing free transportation and \$1,000 in gold per family."

As to the future operations of Technocracy Inc., Mr. Scott declared: "We will never be a political party, and will not elect representatives into the existing order. When the time comes we will call for a referendum on the present system vs. Technocracy."

"We are organizing, training and educating the people against immediate and inevitable crisis," but we are not the cause of that crisis. The people on this continent are no longer economically illiterate."

Technocracy is growing very fast all over Canada and the United States, Mr. Scott stated. The regulations of the organization, however, will not allow any statement to be made as to its numerical strength.

GOVERNMENT MAY ASSUME CHARGES

Continued from Page 1
pluses secured at the expense of maintaining poverty. Relief allowances were inadequate, and diets prescribed in provincial institutions insufficient. If reports were to be credited, Canada was bringing up a generation of "C3" people.

To evade responsibility for their keep, the Province had declared children out-of-school and over sixteen years of age as "unemployable," and thus municipal charges. More welfare visitors were being added, while college graduates now serving in that capacity were too young and not experienced in family welfare, Mrs. Steeves contended.

OPPOSES PLAN
In extended remarks opposing the proposed scheme of British immigration, Mrs. Steeves said the C.C.F. believed in national planning and not in artificial settlement in Canada, according to some authorities, would reach a permanent limit of population at 35,000,000 persons. More adequate provision of people already on the land, and a cure for surplus production without markets should come before boosting immigration. Nothing but increased taxation, increased unemployment, and gradual drift of people into the cities from the land would follow the present proposals if carried out, she declared.

Turning to other matters, Mrs. Steeves urged the Government to encourage and bring about a system of nursery schools for children between the ages of two years and five; currently with regulation of kindergarten schools already in existence. Psychological, sociological and physiological benefits would follow incultation of good habits among infants by nursery schooling under proper supervision she concluded, citing United Kingdom precedents.

HARRY JOHNSTON, M.P.
Mr. Johnston followed. Completion of the Trans-Canada Highway to link British Columbia with Alberta and with mountain parks would, when achieved, bring tourist influx in its wake, he declared. Extensive forest and mineral areas would be opened by completion of the Big Bend route, with forest capital already interested in the area.

Mr. Johnston urged closer attention to forest fire prevention, praising what had already been done to bring about control of slash burning, and otherwise. Increased vigilance for fire prevention would be justified, and necessary if perpetuation of forest revenues had to be secured. Forest revenues had been diverted over a long period of years, and adequate means of controlling a difficult problem handicapped. Forestry camps had done good work and should be continued, he said in conclusion.

HOWARD FORESTER, M.P.
Mr. Forester closed the speaking for the day. After a review of the physical properties of Vancouver, with property values of \$104,995,212 and a population of 260,000 persons, Mr. Forester urged the Government to lighten the burden on real property, when that was possible.

Vancouver, he said, had collected \$13,324,823 from its ratepayers and \$742,758 in provincial grants in 1937; but had paid out \$14,358,622 for an operating deficit of \$280,932. Against

school costs of more than \$3,000,000, the city had collected \$470,744 in grants, while schools, relief and hospitals between them had cost \$2,283,235, against grants of \$742,758. These charges were not rightly attributable to real property, he said.

Vancouver now had a debenture debt exceeding \$69,121,786 including bonds hypothecated to the bank, and was not now levying for sinking funds. Sinking funds were held to an amount in excess of \$17,000,000, reducing the gross debt of the city. The tax rate had been 4.8 mills, and land could not bear additional burdens.

EXPECT ACTION
The cost of education, hospitals and relief should not come from land, but from income tax collections, Mr. Forester continued. Vancouver confidently expected that something would be done when the Government was in position to do so. Liberals at Kelowna had supported the city's case for greater assistance, realizing this was necessary. He felt sure, he said, that the Government would take over not only the cost of education, but hospitals and social service costs as well, just as soon as the necessary adjustments were made between Ottawa and Victoria to make that possible.

In closing, Mr. Forester defended the succession duty tax, and urged the Government to renew work on the Lougheed Highway.

Mr. Braden adjourned debate until 4:42 p.m.

ASSURES AID TO AMERICAS
Continued from Page 1
Italian Reich may seek to extend its influence in Latin America.

Mr. Roosevelt declared that, as the United States of America and Canada, he and his aides are discussing an increased air force. He indicated he favored making it strong enough at least to help defend the entire Western Hemisphere as well as the United States against any aggression from the outside.

There is no intention now, Mr. Roosevelt told a questioner, to create a navy sufficiently strong to defend both the Atlantic and Pacific coasts.

Reports in military circles have said the Chief Executive definitely intends proposing to Congress an army air force of from 7,000 to 10,000 planes, several times the existing strength.

Mr. Roosevelt commented that continental safety from the threat of long-range warplanes was far too low.

LIMA CONFERENCE
Giving a possible preview of the United States arguments to be presented at the forthcoming Pan-American Conference at Lima, Peru, he said world events of the past few years, and the new techniques for waging war, have prompted the United States to reorient itself with regard to North, Central and South America.

At no time since the Latin American countries struggled for their freedom, he said, has the solidarity between all American republics and Canada been stronger. He made it plain that he expected that there would be no defection from this policy.

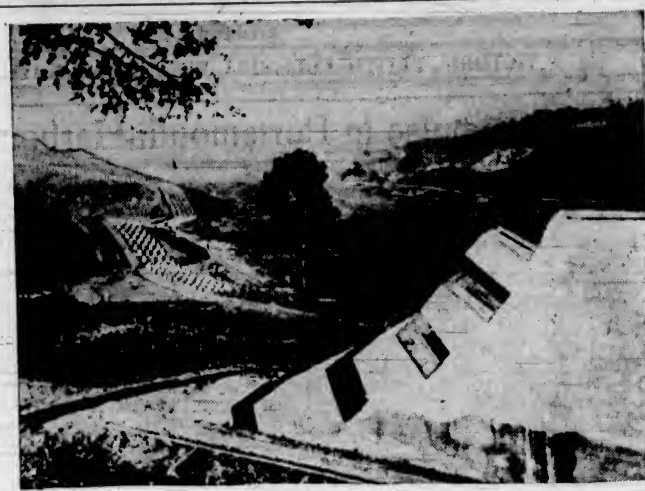

Ambassador Wilson, Secretary of State Hull said today, is due to sail from Havre on Thursday. He will arrive in New York next Thursday, one day before Hull sails from New York for the conference at Lima. Wilson will therefore have a chance to make his first report to Hull.

President Roosevelt said no protest was being made yet to Berlin against the persecution of the Jews. Asked whether his use of the word "yet" indicated a protest at some further date, he said he could not comment further.

SPAKES FOR CANADA
OTTAWA, Nov. 15 (C.P.)—President Roosevelt's declaration today that the United States air programme was designed to protect not only its own country but the twenty American republics and Canada, renewed "the note of co-operation" the President struck at Kingston last Summer, Prime Minister Mackenzie King said tonight after a Cabinet meeting.

On the occasion of his receiving

In the foreground is a new type of road barricade, also made of reinforced concrete. Note how the line of "stoppers" winds through the peaceful fields. Concrete machine gun pill-boxes and heavy gun placements back up this line.

Delayed Reports To Be Presented House Is Assured

TAXED by the Opposition with failure to present reports by the Civil Service Commission and the British Columbia Health Insurance Commission within the statutory time limit, the Provincial Government undertook, in the Legislature yesterday, through Premier Pattullo, to file the reports. Harold E. Winch (C.C.F.-Vancouver East) raised the point, stating the sixteen-day limit had been exceeded already.

an honorary degree at Queen's University, Kingston, last August 18, Mr. Roosevelt declared that should Canada be threatened by an aggressive nation, United States would "not stand idly by."

The President's statement, Mr. Mackenzie King said, was a further indication of the common concern and interest the two countries have for their mutual welfare.

Asked if there was any common policy as between Canada and the United States on the question of mutual defence, the Prime Minister said "the whole question of our policy on defence will have to be reserved until we meet Parliament."

Already the defence committee of the Cabinet have taken under consideration the defences of the nation, the session of Parliament. There have been rumors they will reach \$50,000,000. For the last two years they have been around \$35,000,000.

While Daladier's Government thus broke new ground in Franco-German relations, friends of the Premier planned to make him virtual dictator of France for at least three years.

The plan called for postponement of parliamentary elections now scheduled for the Spring of 1940, and for extension of the Premier's decree powers until 1942.

KAPOOR WORK IS NEAR END

Logging Company May Cease Operations in December or April

If terms of the water board are not met, the Kapoor Lumber Company may be asked to cease all logging operations on the Sooke Lake watershed on December 1, in accordance with an agreement signed four years ago but subsequently extended for a few months.

At a board meeting yesterday afternoon, it was decided to recommend to the City Council that logging cease on December 1, unless Mayo Singh takes charge of the Kapoor Lumber Company operations on the watershed.

Provide that Mayo Singh takes charge, the company will be allowed to operate up to the end of next April, but only if expenses of a watershed sanitary inspector are paid from December 1 to the end of April.

In the event of the agreement being accepted by the company, it will also be required to post a bond of \$3,000 to cover the burning of slash next year. No tractors or caterpillar equipment would be permitted on the property during the extended logging period.

Eating Potatoes As a Profession
LONDON (BUP.)—Eating potatoes is the "profession" of Miss Allison Gifford-Harvey, twenty-year-old university graduate.

She and Mrs. J. Hunt are employed by the Potato Marketing Board and go round to restaurants and sample their chips and mash.

As a result of these visits by the professional potato-tasters only 500 of the 3,000 restaurants of Greater London have received diplomas from the Potato Marketing Board to certify them as experts in the art of potato cookery.

Commissioner Tells Of Salvation Army's Numerous Activities

Large Crowd Hears G. L. Carpenter During Service At First Baptist Church—Representatives of Government, City, Church Tender Welcome

INCLEMENT weather failed to deter a large audience from attending the service at the First Baptist Church last evening, when Commissioner George L. Carpenter, leader of the Salvation Army in Canada, Newfoundland, Bermuda and Alaska, delivered an address on "The Army on the March." Mrs. Carpenter accompanied the commissioner and read a passage from Scripture.

Brigadier Matt Junker, division officer for British Columbia, was chairman of the gathering which was attended by Hon. Norman W. Whitaker, K.C., Speaker of the Provincial House, and representatives of Premier T. D. Pattullo, Mayor Andrew McGavin, representing the City of Victoria, and Rev. F. Comley, for the Victoria Ministerial Association.

The service was opened with the reading of a prayer by Brigadier Frank Ham, field secretary, and was followed by the Scripture reading by Mrs. Carpenter.

PREMIER'S REGRETS
Mr. Whitaker conveyed Premier Pattullo's apologies at being unable to attend. He extended greetings to the commissioner and his wife and welcomed them to Victoria. He said the work of the Army was the admiration of the world and he hoped it would continue to grow in scope and effectiveness.

Mayor McGavin tendered both an official and a personal greeting to the Salvation Army head and his wife. His Worship told the gathering that the citizens of Victoria were never unmindful of the work of the Salvation Army, adding that the City Council, also, never forgot its duty to this great public service organization.

In a brief but humorous talk, Rev. Mr. Comley welcomed the new commissioner. He said it was a great pleasure to represent the Ministerial Association at the service.

Commissioner Carpenter thanked those present for their attendance and said he and his wife were very happy to make this visit to Victoria. The Salvation Army, he stated, had its inception in London in 1865, but it was not until 1878 that it began its rapid spread into foreign countries. It had continued its work of trust, love, unity and good will, and today was prospering as a missionary society.

Total abstinence was a test of membership in the Army, although it concerned itself in a large measure with the victims of alcoholism. Mr. Carpenter remarked.

He told of how the Army had suffered to keep business streets open for public worship and spoke of its many other activities for the benefit of mankind, including among which were the march against crime and befriending ex-prisoners.

Adjutant C. L. Martin expressed the thanks of the local members to the commissioner for his address.

Music was supplied by the united bands, the Southern Brigade and Mrs. Adjutant Martin.

There's only one thing I worry about in a car and that's brakes," said the nervous passenger to the taxi driver.

"Then you've nothing to worry about, sir," replied the taxi driver. "This car hasn't any."

PIONEER LEAVES FRIENDS IN CITY

Mrs. Cumberland, Wife of Judge T. D. Cumberland, Dies at Daughter's Home

MRS. HELEN CUMBERLAND

The passing of Mrs. Helen Cumberland on Armistice Day at the home of her son-in-law and her daughter, Mr. and Mrs. Alan George, Albert Head, will recall to many in Eastern Canada, as well as in the West, the years of consistent and devoted work for the welfare of others, accomplished by this well-loved pioneer. Possessing a gentle gift of leadership, she inspired all those with whom she came in contact to give generously of their best.

Coming West to Winnipeg from St. Catharines, Ontario, in 1882, and going later to Brandon with her husband, Judge T. D. Cumberland, County Court Judge of the Western Judicial District of Manitoba (retired), Mrs. Cumberland and her husband did much towards building up the fine spirit of the West.

During the Boer War, Mrs. Cumberland organized the Red Cross in Brandon, and held the office of president in the Hospital Aid Society for a long term of years. In acknowledgment of her later services in the I.O.D.E. during the Great War she was given life membership in the "Babes" in the Manitoba Provincial Chapter.

Judge and Mrs. Cumberland have spent their winters in Victoria for some time past, making many new friends as well as rediscovering those of former days. Latterly they have resided with their daughter, Mrs. Alan George, and her husband, at Albert Head. Their daughter, Mrs. C. P. Templeton ("Babs"), died in 1914 in the early days of the Great War, in which their son, Andrew, enlisted at seventeen in

the Flying Corps, lost his life in January, 1918.

There survive, besides Judge Cumberland and his daughter, Mrs. Alan George, two grandsons: W. A. George, Jr., of Ladysmith, and T. C. George, of Courtenay, a granddaughter, Margaret, of London, England, and a great-grandson, Alan Bruce George, son of Mr. and Mrs. W. A. George, Jr.

CULBERTSON on CONTRACT

World's Champion Player and Greatest Card Analyst

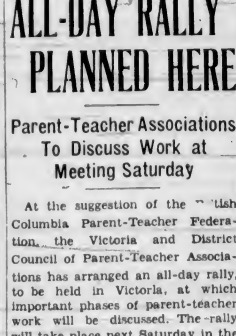

The following table will be used for determining final grades in the Second Annual Self-Rating Bridge Examination:

Final standing Grade
850 points and over... Master
825-849 points... Expert
800-824 points... Advanced
775-799 points... Good average
750-774 points... Weak average
725-749 points... Poor
Below 700 points... Dub

By using 1,000 points as par instead of the 100 point par used last year, I will be able to assign more equitable demerits to the questions. Thus, a slight error will be charged 6 or 7 points; a bad one, perhaps 24 or 27 points. This, in effect, gives fractional differentiations. Last year I was confined to exactly 1, 2 or 3 point demerits on a basis of 100.

ROYAL VISIT PLANS GIVEN

City Council Celebration Committee Works on Many Events

THE KING AND QUEEN

Tentative plans for a fitting celebration to mark the visit of Their Majesties King George and Queen Elizabeth next summer, were made by Aldermen W. H. Davies, Alex. Peden and W. Lloyd Morgan, the City Council celebration committee, during a meeting yesterday afternoon.

The King and Queen are to arrive in Canada on May 15 and depart on June 10. It is anticipated their itinerary will include the capital city.

It was felt by the committee that Navy Week should be transferred from August to a date to coincide with the royal visit. Thus the city would be assured of the attendance of Canadian, British and United States warships. Aldermen Davies thought the Royal Air Force could be urged to make a distance flight from London to Esquimalt to coincide with the visit.

LANDING CEREMONY

Committee plans included a landing ceremony at the Inner Harbor for the royal visitors, with music by massed bands and school choirs. Then would follow a procession to the City Hall for a presentation and official welcome. The route from the harbor would be lined with bleachers with special provision for war veterans and aged persons.

Other events listed included an Indian regatta at the Gorge, school pageants, loggers' sports, tattoo, torchlight parade, naval ball, smoking concerts, naval and military boxing tournament, track and field meet, regatta, box lacrosse games, stampede and Scottish sports.

Alderman Davies stated the celebration committee would welcome suggestions. They may be left with John Baxter, the mayor's secretary.

The C.I.O.'s executive board will have forty-five members. The A.F. of L. board has fifteen.

LONG DEMONSTRATION

The convention staged a fourteen-minute demonstration after adopting without dissent the officers' reports, which included the declaration "with finality" of "no compromise" with its basic principles in peace negotiations.

The eight-page "peace" committee report blamed the A.F. of L. for the labor breach.

Premier Hendrikus Collin told the Netherlands Parliament he was asking Britain, France, Denmark, Belgium and Switzerland to join the urgent discussion of how to find new homes for Jews from Germany.

Reliable quarters said the London Government had kept under consideration the possibility of "approaching Germany at the appropriate moment" to obtain an orderly emigration of Jews under the inter-governmental committee headed by George Rubie, of the United States.

It was understood several informal talks between the British Embassy at Berlin and the German Foreign Office failed to arrive at a decision and Germany was unable to indicate "the appropriate moment" had come.

REARMAMENT

Dr. Goebbels says that in a five-year process of rearmament Germany has become the greatest military power in the world. He says that out of this rearmament grew the occupation of the Rhineland, the conquest of Austria, and now the annexation of the Sudetenland. Germany subjected her economic life and her man power to the process of rearmament. She was able to do this because of her form of government. Democratic countries, even in building up armaments, do not drag out their peoples. For them the task of arming in times of peace is not as simple as it seems.

Mr. Hore-Belisha, British War Minister, explains why rearmament has been delayed in Great Britain. There is a serious deficiency of highly-technical personnel of experience. The omissions of nearly two decades cannot be rectified in a couple of years. It is a programme on which Great Britain is engaged, not an instantaneous creation. It is being carried on with a shortage of skilled labor at particular places on particular tasks. It appears that if there is to be an appreciable acceleration in the task of rearmament there must be a renewed appeal to the patriotism of the people. Either that, or, as Mr. Hore-Belisha says, "it would be necessary to revive the war-time method under which every other consideration is subjected to this." To be effective, he says, "a Ministry of Munitions must have full powers to allot orders, to assign priorities, to control the supply of materials, and to make arrangements for the diversions of skilled labor. These would be fundamental changes." The German plan of rearmament was carried out through means of conscription of whatever was wanted for the purpose.

PUBLIC APATHY

The present Government of British Columbia works on the principle that a political party can retain office through the expenditure of public funds. It remains in office without any seeming diminution of political strength; indeed, it sometimes appears that, through its lavish outlays, it is widening the circle of its adherents. The Members of the Cabinet must, indeed, be laughing up their sleeves because one and almost all Members of the Legislature rarely get to their feet in the House without suggesting some policy or other which will mean a new outlay of public funds. The Minister of Finance, Mr. Bennett, is cluttered up with needless legislation, every bit of which involves expenditure. The people could do with one-tenth of the laws they have. Without them, except those that put up barriers against evil doing, and perhaps a few others dealing with the conservation of natural resources, the inhabitants would be assured that their lawful occasions marched with their civil rights.

British Columbia's Government consistently lives beyond its means. That is simply to say that the taxpayers themselves are being given services of paternalism for which they cannot afford to pay. Provincialism in this sense has gone beyond needs, and here revenue more and more is being devoted to the maintenance and the spread of bureaucracy, to more and more interference with civil rights. There is the spread of governmental at the expense of private employment, for the more is collected in taxation from the people the less is left for the development of industry. The problem of municipal economy is one that is insistent enough; that of Provincial economy is imperative, and it is full time that the people awakened to a realization of a situation that is yearly becoming more acute. The whole theory of government in the country should be revised on business-like lines. "The 11,000,000 people of the country," says The Toronto Globe and Mail, "cannot continue to pay \$900,000,000 yearly for the pleasure of electing 874 Members of Parliament, several thousand Municipal Councillors and 23,000 School Boards, and watching the aggregate public debt grow by millions." It is public apathy that permits the lavish expenditure of public funds. The people, too, are condoning the spread of bureaucracy by submitting tamely to every new infraction of rights that used to be regarded as inalienable.

A LAND SETTLEMENT SCHEME

The success of any land settlement scheme in British Columbia, such as that proposed by Sir Henry Page Croft, will depend on the character and acquisitions of those chosen as settlers, coupled with their determination to make their living off the land. There is an angle of the proposal that cannot be overlooked. Lord Feversham, Parliamentary Secretary to the British Ministry of Agriculture, says that in the last ten years 180,000 farm laborers have left the countryside in Great Britain. This is recorded as the greatest loss the agricultural industry has ever suffered in that country. In the thirty years after 1851 there was a reduction in the number of farm laborers in England and Wales of 120,000, a falling off which at the time was considered one of grave concern. The causes then were the coming of railways, making migration easier, and the introduction of agricultural machinery. The new and more intensive reduction in the past decade has synchronized with the growth in unemployment.

There is then the situation that while in Great Britain more agricultural laborers are needed to reduce her imports of foodstuffs there is a movement to foster a migration of agriculturalists to this Province. It might well prove an excellent thing for British Columbia if what Sir Henry Page Croft has in view can be accomplished. It would be if the right type of settler

is secured. That, however, must be determined in Great Britain, and the fact that so many laborers are leaving the land there is significant. Whether they are willing to go on the land elsewhere and stick to it is the point to be determined. At a time, too, when a part of the policy of rearmament must be greater production of foodstuffs at the heart of Empire, there will be misgivings in Great Britain over a proposed migration of those who are needed for that purpose. This is an angle of Sir Henry Page Croft's proposal that must be given due consideration by the British Government.

THE NEXT TERRITORIAL ISSUE

Former German colonies are now administered under mandates prescribed in 1920 by the League of Nations. Any transfer of these mandates must be made by the League, and can only be made to member nations. Germany is ineligible to receive a mandate, because she has withdrawn from the League. It is another matter as to whether or not the League would consider restoring certain of those colonies to her outright.

The mandate over Tanganyika is held by Great Britain; that over the former German Southwest Africa is held by the Union of South Africa; France and Great Britain jointly hold the mandate over Togoland and the Cameroons. Samoa was mandated to New Zealand and New Guinea to Australia. The balance of former German possessions in the Pacific are governed by Japan on behalf of the League of Nations.

Germany's claims for a return of these colonies are likely to be centred on those in Africa. She intends to insist on her right to a colonial empire. No formal request has yet been made. When it is it will likely be made to Great Britain and France jointly, and not to the League of Nations, which Germany does not recognize. The former Powers will have to put the issue before the League, which has the right of decision.

DEATH OF A DICTATOR

The late Kamal Ataturk was a dictator. He had knit together, consolidated and advanced Turkey's civilization to an extent unknown in centuries past. In the course of the next few years it will be possible to find out what happens in a country when a dictator dies. Kamal was a personality, a strong man, with almost unlimited power to enforce his decrees. He proved his capacity in the field of economics as well as on the field of battle. Turkey has been modernized in many respects, and given a new outlook on its destiny. Kamal had been in power for eighteen years. He made it clear enough that he regarded Turkey as a buffer state, as holding a key position in checking the Oriental ambitions of European Powers. His successor in the office of ruler has a strong example to follow, and may not prove equal to the task. What will happen may well give indications for the future of what permanency there can be in government by dictatorship. The death of Kamal may prove of greater historical importance than can be estimated at the moment.

In traffic accidents in Germany last year there were 8,000 persons killed and 175,000 injured. New measures are being put into effect to discourage dangerous driving. The police are now authorized, "in suitable cases," to deflate the tires of the offender's car as well as demanding the usual fine. The fine, by the way, is collected on the scene of the accident. Hereafter an offender's licence can be withdrawn immediately following an accident for a period varying from a week to three months. The police have been instructed to sharpen their outlook for dangerous drivers. New "halt" signs are being introduced at all dangerous intersections. Disregard of these means a penalty of not less than \$5.

Note and Comment

By Sandham Graves

What is democracy? One of the best answers this column has read in a long time was given in the British Columbia Legislature recently by H. O. T. Perry, former Speaker, near the close of the main debate. Mr. Perry, in the course of a brilliant address, said, in part:

"Parties are obviously essential for a parliamentary democracy and, to be effective, must be formed of groups of men and women with common faiths and beliefs in basic political principles and policies. When we have reached the time when our people think and say that it makes no difference which party is in power; when the faith of the people in party government is lost; when the party machines in their lust for power have crushed the idealists and thinkers out of office; when only expediency rules and basic principles are ignored; when men no longer challenge each other to high debate on the fundamental beliefs and aims of their respective parties—then our boasted democracy will become a memory and a myth. The door will be open for a government of numbers and not of ideas, clothed in the form of parliamentary democracy but actuated in the spirit of tyranny."

"Parties and platforms may differ in economic doctrine, or as to the attainment of desirable ends of economic democracy, but all parties will agree in political democracy and will agree with each other in the extravagance of their protestations of faith in parliamentary, judicial and civil liberties. That faith is based on our conception of democracy as meaning the sovereignty of parliament, government by the executive, and rule by law through the judiciary, and the distinct separation of each from the other—excepting that the rights and powers and sovereignty of the legislature are supreme."

"The history of the long struggle to achieve this liberty is forgotten by many, and even the few remaining ancient symbols intended to remind us of the victories won are fast disappearing. In this age of swift change and rapid progress, the silence of the forgotten. With the ever-increasing tendency to arrogate parliamentary sovereignty by the executive, and in the increasing delegation of judicial functions to an encroaching bureaucracy, it is more and more essential, if we are to retain our democratic ideals, that every member regardless of party in power, be on guard to preserve what are our rights; and to fight and oppose, not the myth of a dictatorship of Fascism or Communism, but the oligarchy of an executive, and the bureaucracy of departments and boards functioning under their delegated regulatory powers, in the place of judicial and open courts of law."

"The weakness of our political democracy is the result of the weakness of parliamentary representation. To maintain the separation of these three functions of self-government, and to allow passively the encroachments of one upon the other, and lessening of the sovereignty of parliament, is a provincial affair. It is true that, owing to our limited legislative authority, the divisions between parties cannot be as deep and wide as in national affairs. Nevertheless, working within these limitations, and within the capitalist system and private enterprise, we can do much even as a provincial legislature." Mr. Perry declared, in debate.

The more that democracy has disappeared in other countries, the more jealous we should be to retain it in those few places about the world where it survives. Canada is one of them. Could you take a poll right across the country from the Atlantic to the Pacific tomorrow, you would find that the overwhelming majority of people in this country want to keep it.

Despite its real abuses, democracy is the only system that appears to even endeavor to retain that element of governance which consults the peoples' will at all. Without the will of the people, no government will last. For the people are human, and unchanged in essentials from the dawn of their first liberties.

Solomon could build his temple with slaves. Pharaohs could and did erect their pyramids with driven labor. About the world today there are millions who goose-step at the word of a despot. But among British peoples that is not so. If history goes for anything, British people will hold close to their freedom; and will gradually take back

from internal autocracies that which was filched from them, while they slept.

Dominoes Statistics

Here are a few statistics on the Dominoes-Cammarano basketball game, Saturday evening at the High School gymnasium. The locals took sixty-six shots at the basket and scored twenty-one, or approximately 31 per cent of their shots. Art Chapman, centre, who played less than three-quarters of the game, scored six of twelve attempts. Other players fared as follows: "Hank" Rowe, twenty-one shots, five baskets; Roy Taylor, thirteen shots, five baskets; "Chuck" Chapman, nine shots, three baskets; "Busher" Jackson, seven shots, one basket, and "Red" Davies, four shots, one basket.—S.T.

Thought Rent Due

"What is the matter? Moving day, is it? Is the rent due?" brother officers asked Constable "Mushy" when he exercised his number twelve in the battle alley on Monday morning. "Mushy" looked out on the street and blinked in surprise. His ancient automobile had empty cardboard cartons, a card table, boxes and gasoline this piled high on the roof. The last time we saw our village grocer on Collinson Street he piled four large suitcases in the back of a truck and announced he was going to England for the winter. We were startled to see the grocer back on deck within one week. "I expected it," remarked Tommy at the corner garage. "His wife's cooking brought him back." And sure enough, she is rated the best cook on the block. Our tobaccoist friend claims there is a story on every girl's face. Usually one she made up herself.—O.B.

Any Old Magazines?

Surely you have some old magazines and papers lying around the house that are doing nothing more than collecting dust. You have? Then why not send them to the young men employed in the Mount Douglas Park camp, who recently wrote to the Victoria Island Publicity Bureau, asking their co-operation in securing suitable reading material. After a hard day working on the road to the summit of the mountain and other projects of beautification of the slope, the boys would like to spend the evenings in their huts reading—but they have nothing to read. In their letter to the bureau, the young men also mentioned that mounted heads of animals, or any other decoration for their huts, would be greatly appreciated as additions to their homes. We would like to make the suggestion that if you are planning a drive next Sunday, why not fill up the back seat of the car with some sort of reading material and visit Mount Douglas Park. You'll be delighted at the progressive work being done there, and at the same time, contribute a little pleasure to the occupants of the camp.—W.F.P.

Glancing Over Sport

Next Saturday we will have our old friend Chuck McGillivray coming over here from Vancouver with a basketball team to battle the Dominions in another inter-city game at the High School gym. Chuck better look out, for the Dominions are really out to avenge that defeat by Staceys a fortnight back, and the local squad is not particularly well-maintained. The Dominions are looking forward to the game, and are sure to give the locals a good workout. The Patrick boys, Lynn and Murray, helped Father Lester in winning the first game of the season for the Rangers on Sunday last. Both appeared in the summary of scoring of getting assists. To settle an argument, Walter Hagen did play at the Uplands Golf Club in an exhibition match back in 1925. Walter Gravin, home club pro, settled the argument once and for all. Hagen also played twice at Colwood, the first time with Johnny MacLennan, then United States open champion, and the second time with Horton Smith as his travelling companion. Do you know that Don Budge and his touring partner, Ellsworth Vines is expected to play in Victoria during their tour of the continent next year?—J.D.

FIFTY YEARS AGO TODAY

(From The Daily Colonist of November 16, 1888.)

Illumination Necessary at Docks.—The necessity of having the principal wharves along the waterfront properly lighted, is nightly becoming more and more apparent. For the past few evenings the passengers from the steamers have been obliged to land in almost total darkness, and it is surprising that some serious accident has not occurred. One good arc light at each of the wharves would be all that is necessary.

The Bonanza Wrecked at Wallings.—On Saturday afternoon the O.R. & N. Company's Dayton boat, the Bonanza, while making a landing at Wallings, ran upon a sunken rock and split in two, sinking immediately in twelve feet of water. The boat will be a total loss. Part of the cargo, however, will be salvaged.

Y.P.A. Concert to Be Presented.—The second entertainment under the auspices of the St. Andrew's Presbyterian Church, will take place in the Philharmonic Hall tomorrow evening, a feature of the programme to be presented on the occasion being the illustration of English character in song and story. Unusual pains have been taken in arranging the programme, and judging from the success which attended the first concert given by the Y.P.A., their second entertainment will certainly draw a crowded house.

Letters to the Editor

No notice to the editor will be inserted except over the proper signature, and address of the writer. This rule admits of no exception. No letter should exceed 100 words in length.

MRS. HELEN BRIDGES

Sir,—Not long ago the writer was called to the hospital bedside of Mrs. Helen Bridges, a co-worker in a mutual cause. The daughter of a Harley Street doctor, Mrs. Bridges threw herself wholeheartedly into the anti-vivisection cause and before being taken to Vancouver desired to say farewell. In spite of her great age, her intellect was unimpaired and it was her hope and desire that, in spite of her infirmity, she might use her influence in a work of reform which was very dear to her heart.

Those of us who knew of her indefatigable labor in this connection pay tribute to the memory of a woman whose spiritual influence must surely be felt on those who are following in the same steps and cannot fail to miss the inspiration of her heart and mind.

DICTATORSHIP AND DEMOCRACY

Sir,—I should be glad to have the opportunity of answering the letter in The Colonist of November 13 contributed by A. S. Averill.

Let it be clear that I am in full agreement with Mr. Averill as regards cultivating a friendly attitude towards Germany, and always in endeavouring to see the good in others.

But it would be a pity if these worthwhile ends were to be handicapped by mistaken ideas about the countries and questions under discussion.

Many people, I believe, will find themselves disagreeing with Mr. Averill's views. For it is surely a mistake to maintain that Fascism is not a menace to democracy when we remember how often the utterances of the Fascist dictators have shown hostility and contempt for the ideals of democracy.

When men as individualistic and ruthless as Hitler and Mussolini stamp out, to the best of their ability, all signs of parliamentary freedom in their own countries, we may be justified in fearing that it is not only in their own countries, but throughout the world, that they range themselves against it. National Socialism is not for German consumption only; to suppose that it is, is to fall into a grievous error. National Socialism is as much an international movement as Communism, and as such it is aggressive. To argue as if this were not so is to underestimate the expansive nature of the movement.

Austria and Czechoslovakia are in fact only the most striking examples of the widespread growth of Nazi penetration in Europe.

It may sound far-fetched to talk of British or Canadian democracy as being endangered, yet the danger may not seem so remote when we realize that in our struggle between two irreconcilable systems, every victory gained by the one, if even only over the weaker members of the other, must immeasurably weaken the world position of the other strategically and morally; and it is doubtful sometimes which of the two considerations is the more important.

The fate of Czechoslovakia has had resounding repercussions through Europe; all the smaller countries that lie in the path of the Nazi "Drang nach Osten," instead of joining the Franco-British democratic group, are creeping politically, as well as economically, towards the German Nazi camp.

Moreover, the Fascists' opposition to Communism is largely to be found in their dislike of the democratic aspects of Communism, which, with its much greater present-day vitality than Western Liberalism, constitutes their major antagonist in the ideological and social fields.

The anti-Communist pact, however, is not levelled only against Communism; it is in the nature of a three-fold imperialistic alliance against the French and British Empires, and as such must be understood by all who profess to be realistic.

Let us, then, while exhibiting a friendly attitude towards the nations living under Fascism, appreciate at the same time the real nature of the conflict going on today for it is in the light of this that the Munich Agreement is to be judged.

S. V. MARTIN

FLIGHT OF THE JEWS

Sir,—It is not possible for anyone with only a spark of love in his heart to remain indifferent to the speech delivered by Rabbi Edward Herzl, of New York, late this afternoon. His speech was broadcast as an appeal to Christianity on behalf of his oppressed people, the people of Israel. He expresses his doubts as to the sympathy of the Christians for the Jewish cause. He warns against the spread of anti-Semitism on this continent and utters the desire to hear from individual Christians that they do not hate the Jews.

In view of the recent acts of the people of Germany, it behooves the truly born-again Christians to cry to God on behalf of Israel. Christians should abstain from any remarks derogatory to the Jews, lest, unwittingly, they should add oil to the already burning flame of hatred, which hatred, although particularly directed against the Jews, has a tendency to spread among the nations with a saner and more rational form of government.

Dictatorships and democratic rules are as opposed to each other as are the North and South Poles. In the latter form of government, the voice of the many is heard; in the former it is suppressed by the few. We cannot, therefore, blame the whole

"Knowing the dreadful methods of vivisection, I became the most vehement opponent of this satanic work, which the vivisectors defend as 'in the name of promoting science' and 'in the interest of suffering mankind.' If God allowed man to enrich his knowledge by means of the torture of millions and millions of animals by the most refined means that can be devised by sadistic minds... then I should have to doubt the love and mercy of this God. No, a God who is in agreement with vivisection would not, in my eyes, be a loving God. Before such a God I could only feel paralyzing fear and incurable terror. I should have to turn my back on Christianity. But thank God, Christianity and Christ's doctrine stigmatize vivisection as immoral, as prohibited, as sinful."

TRANSPORTATION PROBLEM

Sir.—A letter signed A. J. Morley, ex-mayor, appeared in The Colonist of November 5, in which he states that the C. P. Electric Company must be judged not by what it says, but by what it has done in the past; adding, "If the company had its deserts, the franchise should have been revoked when the company ceased living up to its obligations." Mr. Morley failed to state just when the franchise should have been revoked, or what obligation, if any, the company did not live up to. Should Mr. Morley's statement be taken seriously, although one doubts very much that it will, what transportation charges did this situation exist for?

Mr. Morley was mayor? If so, was it he who failed us? Moreover, he

Party at Port Alice

A delightful tea was given recently at the home of Mrs. James McRae, Port Alice, in honor of Miss Bernice Needham, who will soon leave Port Alice for Vancouver, where her marriage to Mr. Henry Richmond will take place. Two contests were held, in which Miss Bernice Needham was the winner. Mrs. James McRae sang "Ave Maria" and "O Sweet Mystery of Life," and Mrs. L. Greig sang "O Promise Me," after which they led the singing when a group of other ladies joined in. Mrs. McRae and Mrs. Angus Macmaster played the accompaniment. Mrs. McGhee and Mrs. Frizell presided at the urns while refreshments were being served. On behalf of the ladies present, Mrs. McRae presented Miss Needham with a gift of money, and after a few words of congratulatory remarks, the company rose and sang "For She's a Jolly Good Fellow" and "Auld Lang Syne." Miss Needham is a very popular member of the younger set in Port Alice, and has lived there since infancy. Others present at the tea were: Mrs. Charles Brooks, Mrs. Pauline Cameron, Mrs. Cecil Crowder, Mrs. Charles Davidson, Mrs. Edward Gillham, Mrs. Frank Hamilton, Mrs. William Hanelaw, Mrs. Gordon Lawson, Mrs. Archie King, Mrs. Archie Kerr, Mrs. Leslie Martin, Mrs. Leonard Reade, Mrs. Fred Smith, Mrs. Norman Stables, Mrs. Robert Stewart, Mrs. David Walters and Mrs. Ivan Whymman.

Club Makes Presentation

Miss Evelyn Morrison and Miss Dorothy Ashman entertained the members of their bridge club last night at the home of Miss Morrison, on Bowker Avenue. After the usual evening of bridge, Miss Jean Drysdale, a bride-elect of this month,

was singled out for a surprise presentation from the other members. A handsome walnut occasional table with a pink satin ribbon was given to the bride-to-be with many good wishes. A card attached to the gift bore the signatures of those present who were girls who had formed the club while they were still in high school and who have been meeting regularly for bridge ever since. A buffet supper was served later from a prettily-arranged table centered with a white porcelain bowl containing yellow chrysanthemums, which were lit by green candles in similar holders. Those present were Mrs. R. Colby, Mrs. H. Ward, Mrs. L. Holmes, Misses Jean Drysdale, Nina Ferguson, Margaret Hemmingsen, Louise Ormond, Margaret Harne, Olive Ormond and Audrey Bland.

Had Shower Last Night

Honoring Miss Joan Bradford, who will become the bride of Mr. Reginald G. Williams this month, the members of her sewing circle held a surprise kitchen shower at their regular meeting held last evening at the home of Mrs. E. B. Rust, on Morrison Street. A bridal motif of white and silver was used throughout the decorations. A large white basket contained the useful gifts for the bride-to-be's new kitchen. An enjoyable evening was spent and Mrs. J. Bradford and Mrs. L. H. Tuthill presided when a sit-down supper was served. The setting for the supper table was particularly attractive: A silver bowl of white chrysanthemums upon a Madeira cloth, formed the centerpiece, while the light from ivory tapers in silver candelabra placed at either end cast a golden glow over the white and silver appointments. Those present were Mrs. J. Bradford, Mrs. L. H. Tuthill, Mrs. W. Elford, Mrs. L. Lane, Mrs. J. Burbridge, Misses Margaret

Birthday Is Celebrated With Dance

Mr. and Mrs. E. R. Price, 1883 Neil Street, were hosts at a delightful dance on Friday evening at McMorran's Pavilion, Cordova Bay, in honor of their son, Raymond, who was celebrating his twenty-first birthday, and who has just returned from service with the Royal Canadian Navy in the Mediterranean. A popular orchestra supplied the music, and there were novelty dances during the evening.

A sit-down supper was served, and during the supper interval Mr. Ross Payne, an old school friend of the guest of honor, read an address of welcome, and on behalf of Raymond's old school class of Cedar Hill School, presented him with a gold signet ring and a giant "key" which, they hope, would open the door to future happiness. Mrs. Price was presented with a beautiful bouquet of chrysanthemums.

The invited guests were: Mr. and Mrs. B. Jennings, Mr. and Mrs. B. Booth, Mr. and Mrs. Archer, Mr. and Mrs. W. Walker, Mr. and Mrs. W. Payne, Mr. and Mrs. F. Hall, Mrs. V. Bazaar for Hospital Is Successful

The annual Christmas bazaar of the Ladies' Auxiliary of St. Joseph's Hospital held yesterday at the Nurses' Home, realized the gratifying sum of \$700 for the auxiliary's funds. The various stalls had been attractively decorated and many tempting wares were on sale.

Tea was served in the reception room, the table, which had been decorated by Mrs. Charles E. Wilson with choice chrysanthemums in porcelain holders, being presided over by Mrs. John Hart, Mrs. C. E. Wilson, Mrs. T. W. A. Gray and Mrs. Alton Peebles. Mrs. Llewellyn Jones was the tea convener and was assisted by Mrs. F. W. Gill and Mrs. A. E. Kemp.

Juvenile Branch

Has Programme

Appreciation of the generosity of His Honor the Lieutenant-Governor and Mrs. Hamber in making it possible, by their donation of tickets, for members to attend the community concert this season, was expressed at the recent meeting of the juvenile branch of the Musical Art Society.

Held at the Victoria Truth Centre, with the president, Bonnie MacDonald, in the chair, the meeting was held in conjunction with a musical programme under the co-sponsorship of Vera Wood, those taking part being as follows:

Andre Pettit, violin solos, accompanied by Miss Dorothy Francis; Thelma Kerra Demus, piano solos; Shirley Gunn, vocal solos (accompanied by Mrs. Gunn); Ruth Gray, piano solos; Joy Berman, violin solos; Gladys Baxter, piano solos; Ethel Middleton, vocal solos. Mrs. Gordon A. McCurdy and Miss Dorothy Parsons, who have succeeded Miss Helen Ockenden in the senior co-sponsorship, were introduced by the president. The treasurer, Eva Hunter, and the secretary, Owen Woolcock, read reports, and the vice-president, Betty Cuth, called the roll. The hope was expressed that more new members would be introduced at the next meeting in December.

After the programme, refreshments were served under the co-sponsorship of Freda Natras.

Jane Dixon Says:

A SUSPICIOUS, ILL-TEMPERED MAN IS POISONING THE YOUTH OF HIS CHILDREN WITH HIS FEAR, DISTRUST AND SUPERIORITY COMPLEX.

What can one say to a tyrannical father who uses his authority as parent to enslave and torment his children?

The office of parent is a sacred trust, not an overseer's job for a Simon Legree!

Dear Miss Dixon: Your advice to be frank with father and tell him how he is curdling our love for him sounds very well, but I'm sorry to say I am afraid to use it.

You see, I have one of those very high-strung fathers who tells us what we may and may not do, and if we ask for reasons, he would almost kill us. If we were to say the least thing he didn't like, he would beat us good. I am of age; my brother is almost of age; but if we crossed him we'd get a caning. We want to love him, Miss Dixon, like we do our mother. Brother and I tell her everything. She understands, tells us right from wrong, and we listen and obey her absolutely. Dad doesn't understand why we want to go places like the other young people, and he won't learn.

We don't blame him for wanting us to keep the right company, and we try to do it. Why can't he have just a little trust in us? His lack of faith is driving me farther and farther from my precious home, from my loved ones. We have such fun with mother when dad is out of the house, but the minute he returns the place becomes as still as a tomb.

He gets us anything we want. I don't remember ever asking him for a dress or shoes or spending money that he hasn't given them to me. Would you advise us just to get out when we can without making a fuss, or should we just sit at home and be miserable while all our young friends are feeling sorry for us and wondering why we aren't allowed to join in their harmless fun?—"I Wonder."

Comment: High-strung is a polite description of your father. A better description is that he is a suspicious, ill-tempered man who is poisoning the youth of his children with his own fear, distrust and superiority complex.

Already the seeds of fear he planted in your heart have taken root. I cannot help you so long as you lack the courage of your convictions. If you are convinced you are being treated unfairly—say so. You are old enough to demand decent redress. So is your brother. Deception is cowardly. I still advise you and your brother to go to your father together and quietly, but with determination, explain your positions.

Leaders Reduce Early Losses in New York Mart

NEW YORK, Nov. 15 (AP).—The brighter domestic outlook tended to offset uneasiness over foreign affairs in today's stock market, and leading issues in the final hour reduced or cancelled early declines running to 2 or more points.

The Associated Press average of sixty issues was 1 point 1/2 higher than the closing of the previous day.

Declining tendencies prevailed in the bond market today.
